Summer 2016

# Am I a fair and just citizen?

As a **Rights Respecting School** we are continuing to learn about the rights and lives of children throughout the world and to explore the Year 6 Big Question, **'Am I fair and Just Citizen?'**

This final term sees the conclusion of this academic year's project **'Shaping Our Future – Let no one be left behind'**, during which we have learnt about the new Sustainable Development Goals and their relevance to the children's future. We continue to raise awareness about the Global Goals in this term's theme **Planet 50:50**. The children will reflect on the role of gender in the efforts to make our world a better place for everyone; in shaping our future girls and women must not be left behind.

## Topic

This term will be exploring our local community and environment. Through this topic we will be developing key geographical skills; including map reading and scales. We will link our study of Kentish Town to comparisons with Paris.

## English

During the first half term, in preparation for the SATs tests, we will be concentrating on spelling, punctuation and grammar skills. In addition to this we will be consolidating the Torriano Detective Agency reading skills.

In the second half of the term we will be writing and adapting play scripts for our end of year production which will be confirmed later in the term.

## Maths

We will be revising many areas of maths, in particular mental and written methods for the four operations, fractions, percentages, decimals, data handling and solving word problems.

We will also improve our reasoning skills and depth of knowledge in these key areas using Add'em's questions.

## Science

In the first half term we will be learning about Charles Darwin and his theory of evolution, followed by developing our understanding of Living Things and their Habitats. We will then begin a topic looking at how electricity is generated and how we use it in our everyday lives.

## PE

This term we will explore multi skills that will be developed through various sports and activities. After half term year 6 will have their final swimming sessions and in preparation for the 2016 Olympics we develop our athletic skills.

## RE

Year 6 will learn more about the concepts of Power and Wisdom. They will explain what justice means to them and relate in to the teachings of Islam, Christianity and Judaism.

## Art

Art work this term will be linked to our topic, year six production as well as urban art related to our local area. With the help and expertise of our resident artist, children will be designing and creating the set for our production.

## Music

This term Year 6 will be composing, practising and performing their very own samba music. Children will then compose and create music for their year 6 production.

## MFL

Year 6 will be continuing to prepare for the Paris trip. We will be investigating Paris and describing what we are going to do using a variety of tenses. Year 6 will have plenty of opportunities to put their French skills into practise in June.

## PSHE

In preparation for our move to secondary school, we will be thinking about friendships and how our attitudes and behaviour influences those around us. Pupils will also have Relationship and sex education. A letter will go out later in the term with further information.

## Computing

Year 6 will continue to use the visual language of Scratch. Using the context of games development the children explore computational creation by designing games.
