

Easter Project 6<sup>th</sup> - 20<sup>th</sup> April

## Who do I want to be?

### Overview of Easter project:

For the summer term we will be learning about the Maya Civilization. To start this, we have set some research links for you to find out more about the ancient Maya and we would like you to build your own Maya Temple!

We would also like you to document the process you go through, to design, build and evaluate your temple. There are full details in Google Classroom.

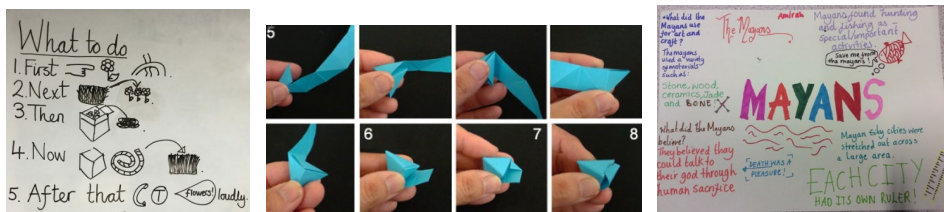

### Part 1: Make your Maya Temple

Use things you find around the house and upload a photo.

### Part 2: Document the process

Use a story map, cartoon strip or even a video to show how you made it.

### Where's the Maths in that?

Can you make a detailed scale drawing of your model? Think about a bird's eye view and a side view, both of which could show the measurements.

How will you ensure each step is the same size? Or will they gradually get bigger?

PE- Joe Wicks - carry on doing your daily active work out.

If you haven't already, have a go at making your own fitness video!

Make sure you're eating healthily. You could keep a healthy eating diary or learn to cook some new healthy recipes!

### Reading Record

Please continue to read throughout the Easter Holiday.

You can continue to complete your reading record online or in your booklet.
