

Easter Project 6<sup>th</sup> – 20<sup>th</sup> April

## Who do I want to be?

### Overview of Easter project:

We hope you have an absolutely wonderful Easter holiday. During the holidays, Google Classrooms will **still be open to finish any work you have not completed but it will be closed for marking and feedback from teachers**. Holidays are an important time for rest and relaxation, and they are also a great opportunity to engage with more creative, longer projects than we might be able to fit in term-time. When you return from the Easter break, we will be carrying on with our **Geography unit on Tectonics**. We have already started to have a look at the impact of plate tectonics on our planet, and the next aspect of that for us to explore are volcanoes! With that in mind, we would like you to spend some time over the Easter break **creating a fun, creative and exciting project about volcanoes!** How far you would like to take the project is *completely up to you!*

You could create a poster...

You could create a survival kit...

You could create an actual volcano...

### Arthur the Author's Top Tips:

Alongside creating your project, it would be great if you could document the hard work that will go into it! This could be a written outcome like a:

- Explanation text
- Comic Strip
- Diary
- Newspaper Report
- Explanation videos

We have included lots of ideas on slides to help you get started with this! You can also find information on how to upload these outcomes on the Google Slides.

### Where's the Maths in that?

What links to maths can you spot in your project?

Here are some questions to get you started:

- How tall is the volcano you made/researched?
- How many ml of vinegar did you use to make your volcano erupt?

### Miss Blanco's Top Tips:

We know that we are all staying inside much more than we usually do so it is important that we keep moving as much as we can! Here are some ideas to get your body moving:

- Joe Wicks Daily PE lessons  
<https://www.youtube.com/watch?v=faE7889AiaU>
- Torriano Alphabet Fitness Challenge

Or you could keep your own **Food Diary** to document what you have been eating whilst at home.

### Online Learning:

You will still be able to use Doodle Maths and Times table Rockstars during the holiday.

We would also love you to use Audible to listen to some new books!

### Reading Record

After reading for 15 minutes a night, please complete a short reflection on the text you are reading in your reading record.
